

# **INSTITUTIONAL QUALITY ASSURANCE CELL (IQAC)**

## **QUALITY POLICY**

Mar Baselios College of Nursing is committed to achieve and maintain the highest standards of quality in nursing education. The college establishes an Institutional Quality Assurance Cell to effectively implement a robust quality system to pursue global standards of excellence in all our endeavors by fostering student nurses to provide competent health care in the clinical and community setting and to promote a research enabling environment to remain focused for continuous improvement in all aspects of our operations through holding ourselves accountable to our stake holders, by self-evaluation and continuous improvement.

## **OBJECTIVES**

- Develop and implement quality in the academic and administrative activities of the institution by aligning with the current trends and best practices in nursing education.
- Improve student learning outcomes by fostering critical thinking, problem solving and clinical reasoning skills.
- Ensure adequate infrastructure and learning resources to support effective teaching and learning processes.
- Provide comprehensive academic and emotional support services to promote student success.
- Encourage the adoption of innovative teaching methods and conduct regular faculty development programs to enhance teaching skills.
- Foster a research oriented culture that encourages faculty and students to engage in research activities.
- Develop and implement effective system for monitoring and evaluating the performance of all concerned areas.
- Analyze feedback from stake holders and implement improvement plans based on the findings.
- Encourage community partnership in health and developmental activities.
- Build strong relationships with health care institutions to provide students with valuable clinical experiences.
- Promote measures to ensure best governance of the institution by enabling a harmonious relationship between students, faculty and alumni.
- Establish effective communication channels to disseminate information and updates to all the stake holders.
